

"Hi Sharon,

Remember me?

Your house is up going beautifully!

I've just had the roof carpentry completed and the zinc roof should be in place next week.

I decided to go with a stick roof and happy that i did because it's an absolute masterpiece. I

found this amazing carpenter on a roof in Ellenbrook a couple of months ago and asked him if he worked for owner builders. And can you believe it, he was actually the lowest quote.

Even the brickwork is of excellent quality. We chose a limestone face brick from Midland brick.

Please feel free to come and have a look at the house if you wish. Give me a ring or email me and i can meet you on site.

David & Maria"
